STORY AT GGU.

CAREER-FOCUSED DEGREES FROM THE HEART OF SAN FRANCISCO

At GGU, our mission is to help you build a brighter foundation for your future through higher education. As one of California's oldest private and nonprofit universities, Golden Gate University has been focused on providing practical, career-focused degrees to working adults since 1901.

Our location in the heart of San Francisco's high-tech and financial district provides you with access to some of the world's biggest companies — even as an online or low-residency, hybrid student. Whether you're ready to finish your degree, make a career change, qualify for a new job, or simply set yourself up for future success, Golden Gate University is here to help you make your goals a reality.

PIONEERING ADULT EDUCATION FOR 120+ YEARS

Golden Gate University traces its beginnings to a night school started by the San Francisco YMCA during the California Gold Rush in the early 1850s. In 1901, the university was officially established as a place where working adults could acquire the education and skills necessary to advance their careers.

For more than 120 years, GGU has helped students achieve their professional goals through world-class undergraduate and graduate education. Over the past 25+ years, we've adapted to the needs of nontraditional students by offering degrees and certificates in growing fields—such as business, finance, law, technology, taxation, and accounting—in two flexible formats: fully online and hybrid. Students can choose the modality that best fits their lives, with the hybrid option blending the best of online and in-person learning in a low-residency format.

EXPLORE OUR SCHOOLS

We offer more than 60 degrees and certificates in two flexible formats: fully online and hybrid, allowing students to choose the option that best fits their schedule and lifestyle. Our curriculum is uniquely designed to be skill-based, practical, and real-world focused, ensuring that students can immediately apply what they learn to their current roles and make an impact in the workplace from day one.
